BALL WARPER 球经机

Your benefit

- KARL MAYER's BALL WARPER is the number one choice when it comes to producing high-quality ball warps
- The BALL WARPER is designed to utilise the latest technology to ensure maximum efficiency in today's high-production environment
- The computer control system provides smooth and consistent winding performance for best results in Denim production

您的优势

- 卡尔迈耶球经机是生产高品质球经的首选设备
- 球经机采用了最先进的技术, 确保最高的生产效率
- 计算机控制系统提供连续、均匀的卷绕性能, 保证优质牛仔面料的生产

- 1 Braking device
制动装置
- 2 Loading and doffing device
上落轴装置

Product features
产品特点

- Up to 20% greater efficiency in warping process
- Best ball quality for fine and course yarns
- Up to 15% better yarn opening performance in beaming process
- 整经效率提高20%
- 加工粗纱和细纱时都提供最好的球经品质
- 在倒轴过程中, 纱线整经性能提升15%

Technical facts
技术参数

Max. speed 最大速度	500 m/min 500米/分
Max. traverse speed 最大横移速度	150 m/min 150米/分
Max tensile force 最大张力	1,100 N
Working width 工作宽度	1,220 mm
Max. ball diameter 最大球经直径	1,524 mm (60")
